

It's the little *push* you need.

Uresta gently pushes against your urethra to significantly reduce or stop leaks, so that you can laugh a little harder, run with your kids, or just sneeze without worrying.

See what **others** are saying!

86%

86% said using Uresta **significantly reduced** their leaks.^[1]

64%

64% said using Uresta **stopped their leaks** and were completely dry.^[1]

Why Uresta?

Uresta is comfortable & effective at reducing or even stopping leaks.

Use Uresta all day, or just when you need it – like when you're exercising, travelling, or on a night out.

It's reusable and lasts for one full year. Simply wash it with soap and water.

It's more cost-effective than disposable solutions, and is better for the environment.

How Uresta Works

Simple to use – you just insert it like a tampon and Uresta presses gently against the vaginal wall to support the urethra and stop leaks. Once in place, you won't even feel it's there.
